PROFESSIONAL SUMMARY

QA Engineer with 4 years of experience testing complex, business-critical systems, specializing in E2E testing of complex business logic, API, BI and Data Validation, and defect investigation using SQL and logs. Promoted to QA Team Lead, leading up to 5 testers while remaining hands-on in day-to-day testing, and recognized twice for outstanding performance on the project. Seeking a full-time hands-on QA role while pursuing a B.Sc. in Information Systems (Cybersecurity) in an evening program.

PROFESSIONAL EXPERIENCE

2023-2026 | QA Engineer → QA Team Lead (Hands-On) | Ness Technologies - Israel Railways Operational System

- ✓ **Complex Feature Testing:** Led QA for complex features in the core operational system, including an automated train departure authorization process; built test coverage from scratch and validated business logic, state transitions, and complex scenarios across UI, API, and Database.
- ✓ **Defect & Requirements Analysis:** Identified dozens of defects and edge cases through in-depth business logic analysis; issues raised during testing led to requirement clarifications and updates with System Analysts.
- ✓ **Investigation & Data:** Conducted complex investigations using SQL, API, and logs, including real-time Production issues, BI and Data Validation, operational metrics, and data cross-checks; developed independent investigation capabilities and shared the methodology with the QA team.
- ✓ **Release Management:** Led Release and stabilization processes across multiple environments, including scope validation, Sanity, Regression, Retest, coordination with Development, and client Release Notes; critical defects and cross-system impacts led to release holds until fixes were verified.
- ✓ **Team Leadership:** Promoted in 2024 to lead up to 5 testers while remaining hands-on, including task allocation, prioritization of features and defects based on severity and release goals, mentoring, and collaboration with Development, System Analysts, Project Management, and the client.
- ✓ **Recognition:** Recognized twice for outstanding performance on the project.

2022 | QA Engineer | Everybuddy Games

- ✓ Performed Mobile testing across iOS and Android, including Functional, Sanity, Regression and UI/UX testing, while working closely with development teams.

2019-2021 | Sales Representative | Partner Ltd

2018-2019 | Security Guard & X-Ray Operator | Israel Railways

TOOLS & TECHNOLOGIES

Testing | Functional, Regression, Integration, E2E, System, API, Backend, Web, Mobile

Data & BI | SQL, SSMS, MDBplus, BI Testing, Data Validation, Operational Metrics Validation

QA Tools | Azure DevOps (TFS), TestRail, Jira, Postman, SOAP UI, Wireshark, Chrome DevTools, JMeter (Basic)

AI Tools (Basic) | ChatGPT, Claude, Gemini

Documentation | Release Management, Defect Lifecycle, STD, Test Cases, Release Notes

Technical Knowledge | JSON, XML | Basic: Java, JavaScript, HTML, CSS, Python

Valid Security Clearance | Level 4

EDUCATION

2026 | Beginning B.Sc. Studies in Information Systems, Cybersecurity Specialization (Evening Program) | The Academic College of Tel Aviv-Yaffo

2024-2026 | Partial B.Sc. Studies in Life Sciences, Biotechnology Track | The Open University

2022 | Advanced SQL Course | John Bryce

2021 | QA & Automation Course | HackerU

MILITARY SERVICE

2016-2018 | Operations Sergeant | IDF Central Command

LANGUAGES

Hebrew- Native | **English**- Good Working Proficiency
